INTEGRATION

Awardco Plays Well with Others

Simple systems, clear communication, powerful possibilities.

We have good news. Awardco has an open API, which means any software you currently use that has an open API can be integrated with our system. Have an HRIS you want to sync with your Awardco platform? No problem. Using Slack to communicate, and want to recognize and reward directly through Slack? We can do that. Want to increase sales performance through recognition? We've got you covered. Make recognition even more rewarding by integrating Awardco with your current technologies, and see how recognition can play a part in all your ongoing initiatives.

Bring all your systems together.
Schedule a demo at award.co/start.

Questions? Email sales@awardco.com or call 800.320.0893.

OUR API ENABLES YOU TO:

✓ **Send data to/from** any existing HRIS through a simple, yet powerful API

✓ **Display recognition** on your company intranet

✓ **Display your social feed** on company televisions

✓ **Connect redemption data** to business intelligence software

And more...
