

## FIELD EFFECT

# Foundational Cybersecurity Assessment

Establishing a reliable foundation for your cybersecurity strategy is essential for your defense. However, with countless cybersecurity frameworks, it can be difficult to understand how to prioritize your investment.

Field Effect will help you establish a strong cybersecurity foundation with actionable recommendations and a tailored cybersecurity action plan. Our team will highlight the cybersecurity gaps known to cause significant risk and help you strengthen your security posture against the most common cyber threats.

Leveraging a combination of industry best practices, decades of experience and modern threat intelligence, our cybersecurity advisors will help you to:

### ASSESS EXISTING CONTROLS

Measure your current strategy against Field Effect's foundational cybersecurity controls, which are essential to maintain a trusted level of security.

### UNDERSTAND YOUR GAPS

Identify gaps in your cybersecurity defense which stop you from preventing, detecting, and responding to the common cybersecurity threats.

### STRENGTHEN YOUR FOUNDATION

Guide your cybersecurity investment with an actionable list of prioritized recommendations.

## What to expect

Our cybersecurity advisors assess the critical and foundational cybersecurity controls required to maintain an adequate level of protection in today's threat landscape. Your Foundational Cybersecurity Assessment will include:

### ASSESSMENT REPORT

Receive a detailed analysis of your organization, highlighting your strengths and weaknesses against Field Effect's proprietary cybersecurity control.

### EXISTING CONTROLS

Identify and document any existing foundational security controls implemented for continued reference and maintenance.

### CYBERSECURITY ACTION PLAN

Implementation plan presents high and medium priority recommendations to strengthen your cybersecurity foundations.

## Key Benefits:

- ✓ Tailored and prioritized roadmaps
- ✓ Proven and approachable frameworks
- ✓ Expert-led analysis of security controls
- ✓ 60 days of threat monitoring and risk assessment

---

## Why Field Effect?

- Expertise - Field Effect's cybersecurity advisors offer decades of experience defending nation-state organizations and conducting incident response; therefore, they have a keen understanding of how cybercriminals compromise small and medium sized organizations.
- Practical methodology - Field Effect protects you against today's threats, using a combination of industry best practices and an in-depth understanding of modern threat intelligence.
- Guided remediation with Field Effect MDR- Field Effect helps you understand and remediate all threats facing your organization with a 60-day deployment of our MDR solution. This includes 24/7 monitoring and threat hunting, vulnerability detection, and more.

## Cybersecurity assessment approach

Field Effect's cybersecurity assessment is designed to be as simple as possible with a dedicated cybersecurity advisor guiding you through each phase.

### Phase 1: Discovery & assessment

- Onboarding
- Internal review of security controls
- Independent completion of Field Effect's Cybersecurity Assessment survey
- Expert-led assessment

### Phase 2: Review / debrief

- Guided review of cybersecurity assessment results
- Debrief on where your organizational gaps are
- Receive prioritized remediation steps to arrive at your recommended maturity
- Receive clarification on questions and next steps

### Phase 3: Progress monitoring

- Two months of monitoring through Field Effect MDR, assessing security posture
- Regular check-ins to review progress and assess findings

## About Field Effect

Field Effect believes that businesses of all sizes deserve powerful cybersecurity solutions to protect them.

Our threat monitoring, detection, and response platform, along with our training and compliance products and services are the result of years of research and development by the brightest talents in the cybersecurity industry. Our solutions are purpose-built for SMBs and deliver sophisticated, easy-to-use and manage technology with actionable insights to keep you safe from cyber threats.
